DISCOVERY OF GOLD IN VINTON COUNTY.—We notice in many of our exchange papers that Gold has been discovered in different parts of the country; but no gold has yet been discovered that is so pure as that lately discovered in Vinton county. It has been ascertained that, by purchasing the different varieties of Fruit Trees, Grape Vines, &c., at the beautiful Nursery of J. & W. GOLD, near McArthur, and carefully painting them, and taking good care of them for two or three years, until they begin to bear the golden fruit, that a more profitable gold mine was never before discovered and worked. Go and see J. & W. GOLD.

RAGS WANTED.—Bring all your rags to this office, where the highest market price will be paid for them.

THE NEW WAGON AND CARRIAGE SHOP AND BLACKSMITH SHOP, on the corner west of the Kaler House, are now open and the business is being carried on extensively. Samuel Books, the Wagon and Carriage Maker, is manufacturing to order all kinds and styles of buggies, sulkeys, carriages, spring wagons, all other kinds of wagons, and in fact every thing that runs on wheels from a trotting buggy to a four horse coach. He is a first class workman, and keeps none but the best workmen in his employ. All work warranted and made of the best material. Repairing of all kinds done on shortest notice and on reasonable terms. Everything cheaper than elsewhere.

Then there is the Blacksmith Shop connected with the Wagon Shop, which is superintended by F. H. Chidister, a superior workman, who is prepared to do all kinds of work in his line, such as horse shoeing, ironing wagons, buggies, sleighs, &c. Just the place to go for the best work.

New Rat Exterminators at Strong's.

MOORE'S RURAL NEW YORKER.—This is the leading and largest circulating and most popular agricultural journal printed on this Continent; and it should be read in every family. It is not a monthly, but a weekly journal adapted to the wants of all persons—containing departments without number. We should feel miserable to hear a person say he did not want it after reading the prospectus in another part of our paper.

WANTED.—Eggs and Butter at this office, for which the highest market price will be paid.

PIANOS FOR SALE.

Pratt's, like other men, sometimes offer some very good bargains. Any person wishing to purchase a splendid Piano, will save from one hundred to one hundred and fifty dollars by calling at this office. We can furnish them at greatly reduced rates.

Wood's Zonic Bitters at Strong's.

LOST.—A Gold Sleeve Button, about the size of a silver dime, with a black enameled German letter A in the center, and black enamel line around it. Any person finding and leaving it at this office, will be liberally rewarded.

SHORT DRESSES.—The New Orleans Picayune has decided views upon the modern street dress. It says:

"The dress is rather short and has not so many widths in the skirt as those which sweep the streets. It hangs gracefully over a hoop of respectable dimensions, and not one that describes an orbit equal to a planet. It gives to the form a lithe and almost airy appearance, adorning, and not deforming the outlines of the handiwork of nature."

The beautiful fabrics that are made now-a-days, and the art and taste displayed in trimming the skirts of walking dresses, make them, besides being convenient and comfortable, really handsome. The fair creature, with one of these walking dresses, looks as though she could trip and skip along—that the native springiness of the limbs was not hampered—in fact, she looks like some symmetrical little craft skimming over the sparkling water.

We have been told that some ladies object to wearing these short skirts, because they leave the feet too much exposed. Perhaps some think their feet not handsome enough to be seen. This is all a mistake. With the pretty, tight-laced, high-heeled walking boots, most any foot looks well enshrouded in them. And why should a lady be ashamed of that which nature gave her?

Of course these short walking skirts would not be suitable to ladies advanced in years, but we hope those who are in their sunny days, especially the lassies, will continue to use them, and leave street sweeping to others.

Barrett's Vegetable Hair Restorative at Strong's.

In this paper will be found a prospectus for a new Agricultural paper to be published at Columbus. It is high time that such a paper was being established in the central portion of our glorious agricultural State. It is said the Editors and Proprietors—Messrs. Dwyer & Busbey—are competent to the task. The people of Vinton county should give the new paper their hearty support. We will furnish the new paper and this paper for one year for \$3.
